OUR STORY

The propeller that hangs in the Wings Restaurant is from one of the original Curtiss JN-4D aircraft, called the "Jenny" by those who flew them.

The "Jenny" was the airplane that was flown by VMA-231, the Ace of Spades when it began operations as the 1st Division, Squadron D at the Marine Flying Field, Miami, Florida on 8 February 1919. Our first Marine Aviator, Alfred A. Cunningham is pictured standing beside a "Jenny", where you can clearly see the propeller in the picture.

In 1996 the propeller was found, restored and presented to the Air Station by Lieutenant Colonel Gustav A. Moldestad, USAF. We are pleased to have this piece of aviation history to share with all who visit Wings Restaurant.
