# Military Academic Skills Program (MASP)

Thanks to our partnership with Craven Community College, the Military Academic Skills Program (MASP) is available for 2021. MASP is a FREE three-week educational program for active duty enlisted personnel, with an overall objective of improving the competencies in the academic skills areas of reading, mathematics, communications, and writing. A Service Member who successfully completes MASP will return to his or her command better prepared to perform and enhance the military mission. MASP is also available to military family members and civilians as space allows and at a cost of \$180.00 paid to Craven Community College. Increasing one’s academic skills allows for increased opportunity within the military, such as qualifying for additional Military Occupational Specialties (MOS), Warrant Officer Program and a number of other service connected programs. The MASP program is administered by Craven Community College. A minimum of 10 students is required in order for class to be provided.

To register, please call (252) 466-3500 or visit the Personal and Professional Development Education Program Office located in the Jerry Marvel Training and Education Building 4335, Room 109.
